00:00:00.170 --> 00:00:08.680

this is really the word what that word means
to various viewers both here in america and

00:00:08.680 --> 00:00:15.840

abroad. i was thinking about how america and
democracy has always had this sense of opposition

00:00:15.840 --> 00:00:22.039

showing tremendous promise and also tremendous
amount of things wrong, things that need to

00:00:22.039 --> 00:00:30.570

be fixed, to be worked on. Good. Neon is an
interesting medium because it is sculptural,

00:00:30.570 --> 00:00:36.639

and I don't think of that I really do sculpture
but use language a lot, so it is a way of

00:00:36.639 --> 00:00:42.600

using language in a sculptural manner. the
Art in Embassies program is an interesting

00:00:42.600 --> 00:00:50.859

way to think about the breadth of american
culture. Embassies in most people's imaginations

00:00:50.859 --> 00:00:56.609

are the places to go to get your passport
or get a visa, they don't think of them as

00:00:56.609 --> 00:00:59.539

sites of culture, but I think they are sites
of culture...
